TWO DAYS. THREE HALLS. THE WHOLE ENERGY VALUE CHAIN.

Where the energy industry does business.

Founded in 1999 by and for the Norwegian supplier industry — and the DNA has not changed. Across three halls at Stavanger Forum, in Norway's energy capital, OTD Energy brings together the operators, contractors and supply chain that build the Norwegian Continental Shelf.

DATES

20–21 Oct 2027

Wed–Thu exhibition. Get-together opens Tuesday evening.

VENUE

Stavanger Forum

Three halls — B, C and E. 6,317 m² of exhibition floor.

Four reasons NCS suppliers rebook.

13 NCS operators in one room, the contractors that deliver their projects, and the supply chain that makes them possible.

01

Direct buyer access

All 13 NCS operators in one location. **826 operator delegates** walked the floor in 2025 — full list on page 5.

02

Documented leads

The top-10 Lead Scanner exhibitors averaged **112 qualified leads** each in 2025. Semco Maritime logged **600**. We publish these figures — most fairs do not.

03

The full value chain

Operators, EPCI contractors, drilling, subsea, and **3,000+ suppliers** on the same floor. From boardroom decisions to the workshop teams that build the parts.

04

Decision-makers

74.5% of visitors influence purchasing decisions — decision-makers, co-decision-makers and advisors combined. **307 procurement professionals** attended in 2025.
